We sometimes forget paper can be more than just a flat page. We can use paper to add texture, pattern, shapes, shading and dimension. Throw in some salt and a little glue and the you'll have some serious fun on your hands! This dimensional project can live in your sketchbook or on a separate piece of paper. We'll be using watercolor paper, scrapbook paper and our scissors to create a unique project. This project can be made in the shape of a tree for the holidays or a swirl for year-round enjoyment and the ideas for embellishment are endless!
