We proudly support products made in the U.S.A.

KEEKPL8511 Keeton's Multipurpose Copy Paper, 8.5"x11", 92 Brightness, 20Lb

Why Buy Made In The U.S.A.?

The forestry and paper industries as well as the communities they serve are vital parts of the North American economy.

To support local businesses and communities, be sure to ask for paper products made in North America.

The forest products industry accounts for approximately 4.5% of the total U.S. gross domestic product.

377,000
U.S. paper industry employees

100
jobs at a paper mill
=
325
jobs in the local area

5 Reasons To Buy This Paper

1  Paper made in the United States and Canada supports local economies and promotes responsible management of forests.

2 The quality, consistency and reliability of this paper saves time and money, while helping businesses look their best. 

3  In part due to paper made domestically, there are more forests today than fifty years ago. The paper industry plants 3 times more trees than it harvests.

4 Supporting your local office supply dealer and other local businesses is good for your community. 

5 Your satisfaction is guaranteed. We offer local support to answer any of your questions.
